

The Heartbeat of Your Production

Providing a vital part of your manufacturing process

contract
production

Now then, how's tha doin'?

We do electronics the right way; the Yorkshire way.

Based in the heart of Yorkshire, we're an electronics contractor specialising in the production of PCB assemblies. With our dedicated team of professional and experienced technicians, we're able to meet high demands in terms of both volume and complexity. We take a no-nonsense approach to our work; if it's not right for you, we'll find a way that is.

We're chuffed to work with many leading names in their respective industries, including Cirrus Research and Inductelec, supporting their products from design through to manufacture and assembly, enabling them to be market-leaders.

Not to blow our own trumpet, but we're proud of ourselves when it comes to quality. Not just of what we manufacture, but also of our people and our level of service; we believe nothing beats Yorkshire customer service. We're committed to making your project succeed, and with us, you'll feel like our only client.

We will help to streamline your production process, saving you time and allowing you to focus your attention on other important aspects of your business. You can be sure that we'll always be here for you whenever you need us; whether it's to discuss your project, make changes to your designs or to share ideas, the kettle's always on for a proper Yorkshire brew.

Meet the family

Helping to deliver service you can rely on.

We recognise the efforts of all our team and know that we wouldn't be where we are if it weren't for their loyalty and dedication. You can be sure that when you choose Contract Production, that same loyalty, dedication and passion will be poured into your project from the very start.

Simon Norris
Managing Director

Simon has an incredibly detailed knowledge of the industry and always ensures that the whole Contract Production team are doing their best for businesses like yours, and supporting them with their newest venture.

Simon knows the original definition of the word "t'werk".

Emma Wrigglesworth
Sales Manager

Emma has years of experience in account management and sales, and continues to drive our business forward by engaging with new customers, and taking personal ownership of their journey with us.

Emma's perfect cup of Yorkshire tea is brewed for 03:54 minutes.

Dave Porter
Production Manager

Dave has accumulated his extensive knowledge of the electronics industry from over 10 years of working on a variety of projects. Dave uses his background to assist businesses successfully achieve their project goals.

Dave is a fish and chips connoisseur, he can smell a chippy from approximately a mile away.

Helping You Succeed

Keeping industry-leaders on top.

We want your project to succeed and thrive. It's this drive that keeps us working with some of the leading names in their respective industries. We help them to succeed with our quality products and services. Although what we make can often not be seen once the product is fully assembled, we know that we are the heart of the whole production process. Your project could be the next success story that we help bowl the perfect over for.

Making electronics?

We offer the comprehensive solution.

With a team of knowledgeable, passionate and dedicated professionals at your disposal, Contract Production can tailor a fully-bespoke electronics solution. Only what you need: no less. We will bring your electronic designs to life.

Our main services:

PCB sourcing and assembly - we have extensive experience in manufacturing high-specification technology boards to meet stringent quality and reliability standards.

We provide a wide range of PCB panel batch sizes, from prototypes and one-off solutions, through to full-contract volumes.

Box-build - along with our PCB assembly service, we provide a turnkey box-build solution to meet your exact requirements.

Surface mount and through-hole - whether you require surface mount technology assembly, plated through-hole assembly or a combination of both, we offer you a total PCB assembly solution at a competitive price.

Prototyping PCB assembly - if you require a single PCB prototype to be manufactured to progress your development work, or a pre-production batch for customer testing, we will work with you to ensure that the quality, cost and delivery of your prototypes meet your needs.

PCB testing - we can design, manufacture and implement bespoke test rigs to meet our customers' requirements. We can also offer processor and GAL programming along with component-level fault finding.

Call us with details of your project and we will tailor an effective solution to pave the way to your success story.

Engineering success

Don't just take our word for it. See what our customers are saying.

We are extremely happy with the fantastic service and support given by Contract Production. Our product is mandated by the International Maritime Organisation, which places additional controls over us and our supply chain. They understand the compliance requirements and ensure our product is of the highest possible quality.

Globalview Systems Ltd

Contract Production manufacture to very exacting standards, many of the more complex circuit board assemblies within our intrinsically safe products. In our experience we have enjoyed consistency in supply with competitive pricing and an excellent pre and post sales service.

HMi Elements

We've been using Contract Production since 2009 to make the circuit boards for all of our instrumentation. We wouldn't choose anyone else. The quality of their work and their passion for what they do is evident and helps us to stay at the forefront of our industry.

Cirrus Research

We have been using Contract Production since the company launched as our primary PCB production company. We have found them to be honest and dependable to deal with in every way, and the resulting PCBs have been very accurately constructed. I would not hesitate to recommend them.

Inductelec Limited

Let's get your ideas off the ground.
